ABOUT

Conscious Magazine is a place to discover culture, people, and community that make a difference.

Conscious profiles some of the world's most innovative brands and entrepreneurs through interviews, editorial content, and collaborations. Conscious introduces a new conversation – one that talks about local and global concerns. Conscious speaks directly to and connects with a growing readership of influencers, leaders, and world-changers. Readers look to Conscious as a source for innovative ideas, inspiring interviews, sustainable fashion, philanthropic travel & dining, current headlines, lifestyle topics, and more. Readers subscribe daily to online features, bi-annually to a magazine, and in-person to events.

INTERNSHIP

At Conscious, it is important to us to invite our community to get involved with the work we are trying to accomplish. We care about investing in others and giving them the tools to create impact. We don't want to do this alone, and we can't do this alone. It is important to us to have a team who is looking to gain experience, looking to be challenged, and at the same time, offering their ideas, insight, and perspective that will become part of the growth at Conscious Magazine. It is also important that one realizes that even our interns know that they represent the brand just like our editors or directors.

QUALITIES

Conscious is a mobile startup and so the environment relies heavily on conference calls and email communication. Because of this, we require the following qualities in our interns.

Initiative Driven, Organized, Passionate, Go Getter, Team Player, Willing to Learn and to be Challenged.
